

## HIE System Connected to PMP Gateway

As of August 17, 2017, the Prescription Monitoring Program integrated with [Health Current](#), Arizona's Health Information Exchange (HIE). As a result, the mandate to review a patient's PMP record before prescribing a controlled substance went into effect on October 16, 2017.

## EHR Systems Connected to PMP Gateway

The following electronic health record systems have been contacted regarding PMP Gateway integration. If you are interested in connecting with the PMP Gateway, whether or not your EHR is on the list, complete the online interest form, <https://pharmacypmp.az.gov/integration-interest-form>, and the Arizona State Board of Pharmacy and its PMP vendor, Appriss, will contact your EHR about connecting you to the Gateway.
